

## SAPHIR GRAIN

Grain bait with 0,005% of Brodifacoum

Rodenticide to fight against mice and rats in and around buildings, waste dumps, open areas

### 1. COMPOSITION

Active substance ..... **Brodifacoum**  
CAS No..... 56073-10-0  
Concentration ..... 0,005% w/w

Colour ..... Blue  
Odour ..... Light

### 2. MODE OF ACTION

The **Brodifacoum** is a third generation anticoagulant. Rodents die from internal bleeding.

**Efficacy:** Symptoms appear a few hours after ingestion and the rodents die a few days later without arousing their fellows' suspicion.

Target rodent: **Brown Rats** (*Rattus norvegicus*) and **Black rats** (*Rattus rattus*)  
**House Mice** (*Mus musculus*)

### 3. INSTRUCTIONS FOR USE

Locate rodent activity tracks: droppings, holes, burrows, nests, etc.

Adapt the number of baits and the distances according to the infestation level:

**Rats:** Secure 45-60g of bait, spaced 10m apart (5m apart in high infestation areas) where rats are active. Regularly check bait consumption and replace consumed or spoilt bait until consumption has stopped. Repeat treatment in situations where there is evidence of new infestation (e.g fresh tracks droppings).

**Mice:** Secure 10-25g of bait, spaced 5m apart (2m apart in high infestation areas) where mice are active. Regularly check bait consumption and replace consumed or spoilt bait until consumption has stopped. Repeat treatment in situations where there is evidence of new infestation (e.g fresh tracks or droppings).

Place baits in a safe manner to prevent access by children and non-targeted animals. Preferably use bait stations. Regularly check bait consumption and replace consumed or soiled bait, until the consumption has stopped.

At the end of the treatment, remove baits and material and dispose of safely. Repeat the treatment in case of new infestation, new tracks or fresh droppings.

### 4. ELIMINATION

Dispose of this material and its container in a safe manner. Do not dispose of into drains, sewers and water course. Dispose of the unused product and its recipients in safe manner according to local waste disposal regulation

### 5. PACKAGING
