## RODENT TRACKING LURE

### Presentation

Active odorant spray preparation for monitoring and tracing of rodents.

3 flavors available :

- Anise
- Caramel
- Fish

Can be applied to all plastic surfaces (mechanical traps, baiting stations, etc.), along the walls and on the ground.

### Strengths

- Easy application
- Nontoxic
- Colorless
- Caramel formula without allergens
- Ideal for integrated pest management

### Application and dose

Shake before application, spray directly on surfaces, allow to dry completely.

A spray of 100 mL allows up to **500 sprays**.

**Action lasting several weeks** depending on the type of support and the environmental conditions. Store in a cool, dry place.
