

# TECHNICAL DATA SHEET

MADE IN FRANCE

# BOBBY BOX

by LODIGROUP

MULTI-FUNCTIONAL RAT BAIT STATION  
THE MOST VERSATILE ON THE MARKET

## Presentation

The **BOBBY BOX** rat bait station allows the installation of all existing types of bait, a mechanical trap, a capture system or a detection device.

**Shape:** rectangular

**Dimensions:** L 275 x W 190 x H 125 mm

**Matter:** PP made from recycled material

**Color:** Black (Anti UV)

## Strengths

The **BOBBY BOX** is a unique bait station on the market thanks to its unprecedented versatility. It can contain :

- all existing baits (paste, grain, block, ...)
- Ratonex Liquid 26
- a mechanical rat trap
- plastic rat/mouse glue boards
- detectors

The **BOBBY BOX** bait station is 100% made in France.

## Other characteristics

- Secure workstation with integrated multifunction key (also opens other existing workstations).
- Presence of feeders and a metal rod for fixing the blocks.
- Splash-proof station providing excellent protection for bait on grain.
- Integrated notch for adding a fixing cable.
- Detector sensors can be fixed directly inside the trap with an ideal angle of 45° above the rodent's passage, allowing its detection.

## Security

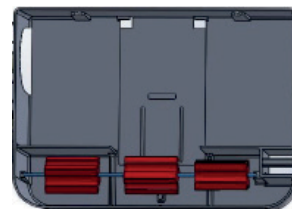

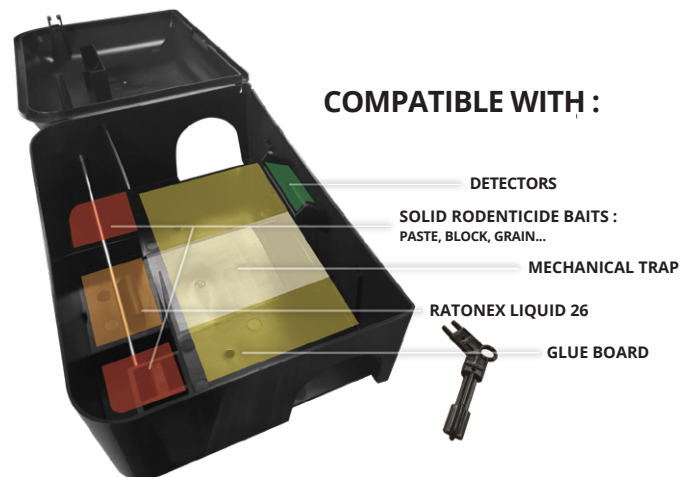

The **BOBBY BOX** bait station is secure; once the top part is closed, the station is locked; it opens using a special key supplied with the station. Securely closed, the station cannot be opened accidentally (by children or non-target animals, for example).

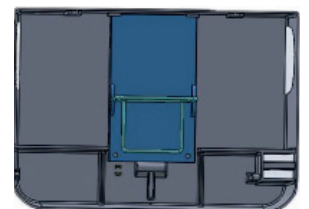

## Packaging

**Ref. R3225 :** Box of 12 units

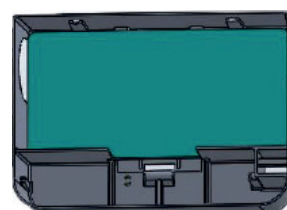

## Instructions for use

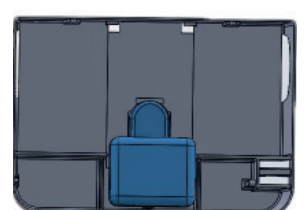

Placement of rodenticide baits :  
- Grain feeders  
- Bait attachment rod  
(pastes, blocks, grain...)

Placement of mechanical traps  
such as mouse swatter

Placement of glue boards

Placement of Ratonex Liquid 26
