

PAR AGRO 9300

BAIT STATION
INTENDED FOR RAT CONTROL

Presentation

The **AGRO 9300** bait stations are rigid boxes designed to protect baits in rat control.

Features :

- HD polypropylene plastic
- Opening and closing secured by a screw system
- Trapezoidal shape to be placed anywhere
- Possible insertion of adhesive strips
- Dimensions : 330 x 140 x 110 mm

Strengths

The **AGRO 9300** bait station is particularly suitable for rat control. Its trapezoidal shape allows it to be placed anywhere. Rodents will enter the station through the entry holes located on each side of the station.

The **AGRO 9300** bait station is easy to clean and can be reused.

Security

The **AGRO 9300** bait station is secure; once the top is closed, the station is locked; it opens using a special key supplied with the station. Thus securely closed, the station cannot be broken into (by non-target animals, for example).

Packaging

Ref. R3116 (black) : Box of 12 units

Ref. R3119 (transparent) : Box of 12 units
