

ORIGIN CRYO

SOLUTION TO ELIMINATE
CRAWLING AND FLYING INSECTS
THANKS TO COLD EFFECT

Presentation

ORIGIN CRYO is a solution to eliminate crawling and flying insects thanks to cold effect. Without biocidal active ingredient, odorless, it leaves no trace or stain on supports. At -40°C, insects are paralyzed and frozen instantly.

Strengths

- Instant insect control by freezing
- Ideal for sensitive places
- Double jet head for areas with difficult access

Targets

Flying and crawling insects : cockroaches, spiders, ants, bees, bedbugs, flies, mosquitoes, mites, etc.

Application

ORIGIN CRYO is to be used wherever the use of biocides is regulated or prohibited. **ORIGIN CRYO** can be used in :

- kitchens,
- food environments,
- bedrooms,
- on textiles or mattresses.

This formulation without insecticide active ingredient is not persistent. Wait until the insect is laid before spraying at 20 cm maximum. A few seconds are enough to freeze the insect. Thanks to the tube extension it is possible to reach insects present in cracks and crevices.

MADE IN FRANCE

Packaging

Réf. I7517 : 500 ml Aerosol - 12 units per box

Precautions for use

For sensitive surfaces such as leather, furniture and carpets, make a test touch on inconspicuous areas. Do not spray near live electrical appliances. Usable only when the equipment is not powered. Wait 5 minutes before powering up the equipment. Do not spray on skin, risk of cold burns.

Use aerosols with care. Before use, read the label and product information. Dangerous, respect the conditions of use.
