

ADDICT® GEL

GEL BAIT AGAINST COCKROACHES READY TO USE

Composition

Dinotefuran (CAS 165252-70-0) 2% m/m
 Authorisation number UK-2017-1064 (LODI S.A.S. France)

Strengths

- New active
- New generation
- Quicker kill
- No known resistance
- Compatible with Integrated Pest Management (IPM) practices

Application rates

Indoor use only. For use within Commercial & Industrial premises, domestic properties, private & public areas (ie Hospitals, nursing homes). Apply directly to cracks and crevices or as a spot treatment only.

German Cockroach : Apply 2 x 0.1g of gel bait per square metre
Oriental Cockroach : Apply 4 x 0.1g of gel bait per square metre

Double the application rate in case of heavy infestation.
 Apply a maximum of 16 spots of gel bait in domestic properties and up to 72 spots when treating any commercial, industrial or public areas.

A repeat application may be required 7 days after the initial treatment.

Instructions for use

- To apply the gel, remove the cap from the nozzle, touch the tip of the nozzle to the surface to be treated and depress plunger slightly.
- Re-apply according to remaining level of infestation and when bait is no longer visibly present. Replace cap for storage of the product.
- Use only as a spot treatment in areas that will not be accessible, will not be submerged in water and where the bait would not be removed by routine cleaning. To maintain product palatability, apply away from sources of heat.

Spot treatment method of application :

Remove cap from tip of applicator tube. Place tip at spot where gel is to be applied. Depress plunger until appropriate amount is dispensed. Replace cap when finished dispensing gel.

Cracks and crevices method of application :

Gel bait should be applied directly into cracks and crevices where insects hide. Place the applicator tip directly into cracks and crevices and deposit gel. Bait should be in the void area and not on open or exposed surfaces.

Packaging

Box of 4 x 30g tubes

FIRST AID instructions

Ingestion : rinse mouth with water. Get medical attention immediately. Induce vomiting as directed by medical personnel. Never give anything by mouth to an unconscious or convulsing person. **Inhalation** : if you feel unwell, remove to fresh air immediately. Get medical attention if cough or other symptoms develop. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. **Skin contact** : immediately remove contaminated clothing and shoes. Flush skin and clean off with large amounts of water. Get medical attention if symptoms develop.

Eye contact : immediately flush with plenty of water. Part eyelids with fingers to assure complete flushing. Check for and remove contact lenses if easily possible. Get medical attention if irritant persists. **Personal precautions** : wear PPE. **Eye/face protection** : safety glasses, goggles. **Hand and body protection** : chemical resistant gloves, safety helmet, protective clothing, safety boots. **Respiratory protection** : chemical cartridge respirator.
