

CYPERBIO 100 EW

CONCENTRATE INSECTICIDE AGAINST FLYING AND CRAWLING INSECTS
BIOCIDAL USE FOR PROFESSIONAL

1- COMPOSITION

Formulation:

Cypermethrin 100 g/L

Formulation type: aqueous concentrate emulsion to be diluted into water. Advantage: odourless

2- TARGETS AND MODE OF ACTION

Mode of action:

CYPERBIO 100EW acts on insects' central and peripheral nervous system. Cypermethrin is a molecule that belongs to Pyrethroids family; it disturbs nervous impulse transmission, all along insects' neurons, by extending sodium channel opening in nervous cells.

Cypermethrin confers to CYPERBIO 100EW a long-term efficacy (at least 12 weeks in optimal conditions)

Target species:

CYPERBIO 100EW is effective to fight against lots of crawling and flying insects such as cockroaches, ants, fleas, wasps, flies, mosquitoes as well as spiders and acarions and dust-mites.

3- DILUTION AND RATE OF APPLICATION

Dilution rate:

Pour 250mL of concentrate CYPERBIO 100EW directly into the sprayer. Mix thoroughly in order to obtain homogenous solution.

Application rate:

Spray the dilution thanks to appropriate sprayer, 5L of diluted product onto a 100m² surface
LODI advice: Dilute only the needed quantity.

4- INSTRUCTION FOR USE

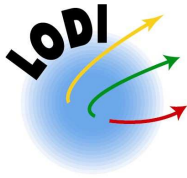

Evacuate the area to be treated from people, pets, animals, aquariums, terrariums and foodstuffs.

Spray onto infested surfaces and surfaces liable to be infested: floor, plinths, doors and windows frames, cracks and crevices, under and behind pieces of furniture, frames, bathtubs, sinks, etc.

Ventilate during the treatment

5- PACKAGING

250mL plastic flasks

6- PRECAUTIONS FOR USE

Handling:

Use biocides safely. Always read the label and product information before use.

Read the safety data sheet before use. Safety data sheet free available on request.

Wear the personal protective equipment (mask against fogging particles, gloves and goggles, appropriate clothing)

Wash hands after handling.

Rinse apparatus after use. Avoid release into the environment.

Storage:

Keep away from the reach of children and pets.

Do not use for any other purpose.

Store in the original container, do not reuse the packing once empty.

Take care of sensitive surface (varnish, electronic apparatus, etc.)
