

PHOBI

TECHNICAL DATA SHEET

PHOBI PYRETHRUM

BIO-BOOSTED INSECTICIDE
100% VEGETAL ORIGIN
FORMULA WITHOUT PBO

Composition

Natural Pyrethrum 20g/L

Presentation

Ideal for the treatment of homes, offices, industrial premises and agro-food industries, for the treatment of Products of Plant and Animal Origin storage and transport equipment, as well as those containing hermetically packaged foodstuffs.

The product can also be used for the treatment of tobacco.

CRAWLING INSECTS: Cockroaches, ants, adult fleas, spiders and insects of stored Products of Plant and Animal Origin such as triboliums, weevils, dermestes, tobacco lasiodermes ...

FLYING INSECTS: Food Moths, Ringworms, Flies, Midges ...

Strengths

- Innovative formula based on natural pyrethrum / PBO-free
- Bio-boosted thanks to the exclusive combination of solvents and adjuvants of 100% vegetal origin
- Shock action: 99% of insects dead in 4 hours
- Suitable for the treatment of sensitive areas
- Suitable for the treatment of tobacco

Application & Dose rate

SURFACE TREATMENT

- Moderate infestation: dilute 250mL of product in 5L of water to treat 100m²
- Strong infestation: dilute 500mL of product in 5L of water to treat 100m²

VOLUME TREATMENT

Apply the product with a cold fogger. Dilute if necessary according to the material used. Dose: 200 to 400ml per 1000m³.

Shake before use. Wear protective equipment appropriate to the treatment used. Make sure that the area to be treated is closed to contain the product. Leave at least 8 hours and ventilate the room thoroughly before entering. Rinse the material thoroughly after each use.

Package

1L bottle

Precautions for use

In the case of volume treatment, the treated premises must be empty of people and animals (including aquariums and terrariums). Repeat treatment in case of new infestation. The packaging and the product must be disposed of as hazardous waste under the full responsibility of the holder of the waste. Do not reuse the packaging. Thoroughly clean the equipment used after use. It is recommended to wear gloves and to wash hands after each use. Rinse the food contact surfaces thoroughly after each use. Take all appropriate measures to avoid contamination of packaged foods. Do not throw away residues in sewers and water courses. Store in the original package.

Use insecticides safely, always read the label and product information before use.
