

LOCLEAN

Virucidal disinfectant

Conforms to EN 14476

Presentation

LOCLEAN Disinfectant Virucide disinfects floors and washable surfaces in all premises. This product is bactericidal (kills bacteria), fungicidal (destroys moulds, spores or fungi) and virucidal (kills viruses) and is suitable for floors and washable surfaces (door handles, work surfaces, etc.) in all premises (food processing industries, hotels, restaurants, hospitals, clinics, sanitary facilities, schools, etc.).

Characteristics

General Information :

- Clear, colourless liquid - Odour: Ammonia
- Density (20°C): Approx. 1.041g/cm³
- pH of the concentrate: 12.00 - 12.50
- pH (diluted) : 10.51 (1%) 10.79 (2%)
- Solubility: Completely soluble in water.
- Stability: 2 years

Biocidal composition :

Alkyl (C12-16) dimethylbenzyl ammonium chloride : 104 g/L

Application

LOCLEAN Disinfectant Virucide is suitable for disinfecting washable surfaces in the food industry and in institutional and industrial areas where high hygiene standards are required.

In order to achieve the desired effect on surfaces, it is recommended to apply the disinfectant after pre-cleaning. Dilute the product according to the desired effect (see paragraph efficiency & dilution). The diluted product is used at a rate of 1L per 20 m². Without rinsing (except for surfaces that may come into contact with foodstuffs).

Efficiency & dilution

Apply the product after cleaning the surfaces.

For a bactericidal activity, apply the product diluted 1% in water and let it act for 5 minutes.

For fungicidal activity, apply the product diluted 2.5% in water and leave to dry for 15 minutes.

For a virucidal activity, apply the product diluted at 2% in water and leave to dry for 5 minutes.

Efficiency :

Bactericide : Pseudomonas aeruginosa, Staphylococcus aureus, Enterococcus hirae and Escherichia coli according to European standard 13697 : 2002. Listeria monocytogenes and Salmonellatyphimurium according to European standard 13697 : 2015

Fungicide : Aspergillus brasiliensis and Candida albicans according to European standard 13697: 2015.

Virucide on enveloped viruses : Poliovirus type 1, adenovirus type 5, murine norovirus according to European standard 14476.

Precaution of use

Dangerous. Observe the precautions for use. Use biocides with care. Read the label and product information before use. Always consult the safety data sheet, which is available free of charge on request. Wear appropriate personal protection. Rinse equipment and wash hands thoroughly after handling. Keep out of the reach of children and pets. Evacuate personnel, animals and foodstuffs from the area to be treated. Ventilate area during treatment. Beware of electronic equipment and sensitive surfaces. Do not use this product for any purpose other than that for which it was created.

TP2 - TP4 - Before use, make sure that it is indispensable, especially in places frequented by the general public. Wherever possible, favour alternative methods and products with the lowest risk to human and animal health and the environment.
