

SPRAYER GLORIA PRO 5
PRESSURE SPRAYER FOR ALKALINE PRODUCTS

1. PRESENTATION

This pressure sprayer, particularly robust, is especially designed for products with high pH. The Sprayer Gloria Pro 5 has a capacity of 5L. It allows the use of water-based and oil-based products. Pumps have a maximum pressure rating of 3 bars and provide a constant spray.

2. USE

The most frequent application domain for this apparatus is the spraying of chemical products for surface treatments.

Its intern mechanism, particularly at the seals, allows the use of alkaline products.

This type of material must be drained of liquid, pressurized and dried after each use.

3. TECHNICAL CHARACTERISTICS

Max Pressure services	3 bars
Capacity	5L
Reservoir	High quality plastic
Power	1000 Watts
Support system	Strap for wearing on shoulder
Spraying	Lance with adjustable brass nozzle
Weight	1.6Kg
Dimensions	Ø 18 cm, H 52 cm

4. ADVANTAGES

- ❖ Particularly adapted for the use of alkaline products.
- ❖ Thanks to constant spraying, it allows the user to work during long period without worrying about the spray pressure.
- ❖ The wide funnel and well-designed carrying straps provide ease and comfort at work.
