

ORIGIN Bed Bugs Repellent

READY-TO-USE LIQUID
IMMEDIATE REPELLENT EFFECT
AGAINST BED BUGS

Presentation

In the case of a bed bug infestation, the ORIGIN BED BUG REPELLENT is ideal for protecting textile surfaces such as mattresses, sofas, curtains, and more. The product can also be used after insecticide treatment to prevent reinfestation.

Composition

Ethyl butylacetylaminopropionate (CAS 52304-36-6): 25 g/kg
Geraniol (CAS 106-24-1): 0.09 g/kg
Biocidal use: TP19

Strengths

- Complementary solution to insecticide treatments,
- Immediate repellent effect,
- Residual action for 1 week,
- Easy to apply,
- Odorless.

Uses

Shake well before use. Spray the product from a distance of 20 cm on bed bug hiding places: mattress/box spring seams, slats, baseboards, dressers, and other dark corners. Spray at a rate of 50 mL of product per m², or 130 mL for a mattress of 140 x 190, or 40 mL on the mattress edges. Allow to dry and ventilate the room before reoccupying (approximately 30 minutes to 2 hours depending on ventilation levels).

The product acts immediately upon application and remains active for 1 week. Reapply the product in case of new infestations. The product does not leave traces on surfaces (perform a test in a concealed corner).

Reference and packaging

Ref. **I8167**: 5L canister - Carton of 4 units

Precautions and elimination

TP19 - Use repellents with caution. Before use, read the label and product information. Dangerous. Follow safety precautions. The safety data sheet is available for free upon request at the following address: fds@lodi.fr. For first aid instructions, contact the nearest poison control center.

Do not use this product for any purpose other than its intended use. Do not reuse the packaging. The packaging and product must be disposed of as hazardous waste under the sole responsibility of the waste holder. Do not dispose of residues in sewers and watercourses.
