

# ORIGIN GLU WASPS & HORNETS

AEROSOL WITH IMMEDIATE MECHANICAL ACTION  
LONG-RANGE JET

### Indications

Immediate mechanical action: this aerosol releases an extremely adhesive product that seals the entrances to the nests of insects, such as wasps and hornets, and sticks the insects in the nest.

The insects are also stuck when they return to the nest and the nest is destroyed. The larvae eventually die of starvation.

### Strengths

- Without biocidal active substance.
- Alternative to insecticide treatments.
- Paralyzing mechanical effect.
- Long range jet.
- Immediate effect.

### Targets

- Wasps spp.
- European hornets
- Asian hornets

### Instructions for use

For professional use only.  
Outdoor use and indoor use only in cellars and attics.  
Caution: the product leaves traces on the supports.  
Do not use in living areas.

#### On isolated insects near nests:

Spray with short bursts of 1 to 2 seconds on the insect, avoiding facing the wind.

#### On outdoor nest:

From a distance of 2 meters, spray for 3 to 5 seconds (in the direction of the wind) to cover the nest and place the glue on the entrance of the nest, preferably in the evening when the insects are in the nest. Then spray directly into the nest (5 seconds is enough for a nest of 30 cm in diameter).

#### On indoor nest (garden shed/attic):

Spray for 1 to 2 seconds on the nest to kill the insects.  
Then spray directly into the nest (5 seconds is enough for a nest 30 cm in diameter).

### Packaging

750 ml aerosol

### Disposal

Do not dispose of the product in drains (sinks, toilets, etc.), gutters, waterways, in open fields or in any other outdoor environment. Packaging and product must be disposed of as hazardous waste under the full responsibility of the holder of such waste.

### Safety instructions

Use aerosols safely. Always read the label and product information before use.  
Dangerous. Follow safety instructions.

Before any use, equip yourself with an anti-wasp and/or hornet suit to reduce the risk of stings.  
Do not use the product continuously.  
Do not use this product for any purpose other than its intended use.

Removing glue from surfaces: use a suitable solvent.

Removing glue from skin: apply a little vegetable oil to the sticky areas and wash your hands with soap.
